

DCIP-1/CXCL3

Catalog # PVGS1439

Product Information

Primary Accession Q6W5C0
Species Mouse

Sequence Ala28-Ser100

Purity > 98% as analyzed by SDS-PAGE

Endotoxin Level

Biological Activity The EC₅₀ value of mouse DCIP-1/CXCL3 on Ca²⁺ mobilization assay in

CHO-K1/Ga15/mCXCR2 cells (human Ga15 and mouse CXCR2 stably expressed

in CHO-K1 cells) is less than 100.0 ng/ml.

Expression System CHO

Formulation Lyophilized after extensive dialysis against PBS.

Reconstitution It is recommended that this vial be briefly centrifuged prior to opening to

bring the contents to the bottom. Reconstitute the lyophilized powder in

ddH₂O or PBS up to 100 □g/ml.

Storage & Stability Upon receiving, this product remains stable for up to 6 months at lower than

-70°C. Upon reconstitution, the product should be stable for up to 1 week at 4°C or up to 3 months at -20°C. For long term storage it is recommended that a carrier protein (example 0.1% BSA) be added. Avoid repeated freeze-thaw

cycles.

Additional Information

Gene ID 330122

Other Names C-X-C motif chemokine 3, Dendritic cell inflammatory protein 1, Cxcl3

{ECO:0000312 | MGI:MGI:3037818}

Target Background Chemokine (C-X-C motif) ligand 3 (CXCL3) is a small cytokine belonging to the

CXC chemokine family that is also known as DCIP-1 (dendritic cell

inflammatory protein-1) or MIP2b. CXCL3 controls migration and adhesion of monocytes and mediates its effect on its target cell by interacting with cell surface chemokine receptor CXCR2. It has been shown that CXCL3 regulates the migration of precursors of cerebellar granule neurons toward the internal

layers of cerebellum, during morphogenesis.

Protein Information

Cxcl3 {ECO:0000312 | MGI:MGI:3037818} Name

Ligand for CXCR2. Has chemotactic activity for neutrophils. May play a role in inflammation and exert its effects on endothelial cells in an autocrine fashion. **Function**

Secreted {ECO:0000250 | UniProtKB:Q10746}. **Cellular Location**

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
